

INDIANA WATER RESOURCES RESEARCH CENTER 2021 REQUEST FOR 104B PROPOSALS

Indiana Water Resources Research 104B Grant Program

Funding Cycle: March 1, 2021 – February 28, 2022

Submission Deadline: Monday, November 16, 2020 at 5PM Eastern

Project Title and List of Reviewers due: Monday, November 9, 2020 by 5PM Eastern.

PROGRAM DESCRIPTION

The Indiana Water Resources Research Center (*IWRRC*) invites faculty and affiliates from *Indiana's colleges and universities* to submit water related proposals for possible funding. The Indiana grant program is supported via an annual grant from the U.S. Department of Interior, U.S. Geological Survey, as part of the federal Water Resources Research Act of 1984 (Program 104B). This program provides a base of support for Indiana's water resource research needs. **Note: we have not received official notification for the levels of federal support in the 2021 program. As a result, the loss of the entire program, reductions in funding levels, and funding delays are possible.**

PROJECT AREAS

The IWRRC program supports research in all areas of water research, especially identified Indiana water priorities which include Harmful Algal Blooms, PFAS, invasive species, thermal pollution, nutrient loading, hydrologic alteration, among others. We also encourage research on emerging water issues not yet identified as a water priority.

For FY2021, the IWRRC is collaborating with the Indiana Water Resources Association and their focus on the Ohio River basin for their 2023 annual symposium. Therefore, the IWRRC hopes to fund at least one proposal focused on research in the Ohio River basin, but encourages other project ideas that are beneficial to Indiana's water resources.

PROPOSAL DETAILS

For FY2021, the IWRRC is accepting research proposals for up to \$25,000 in funding

Research proposals will be **competitively reviewed** using an external peer review process. The reviewers will use the following criteria in assigning a final rank:

- 1) Technical merit, proposal quality, and feasibility (65%);
- 2) Applicability to Indiana's needs (15%);
- 3) Involvement of graduate students in research (5%); and
- 4) Capability of the PI(s) (15%).

Highly valued research projects will also include activities to disseminate information and results to the public. We anticipate funding up to 3-4 research projects this year, depending on the level of monetary requests. Funded PIs will be asked to contribute towards a fact sheet detailing their study findings, give a presentation during an IWRRC sponsored webinar, and participate in the annual Indiana Water Resources Association Symposium.

The IWRRC grant application should have a March 1, 2021 start date (see below), 12 month duration. As has been the case over our history, a non-federal match of 2:1 (non-federal to federal) is required. Indirect costs are not allowed on the federal cost category (Public Law 101-397, Water Research Institutes Authorization). However, the indirect costs may be used to provide part of the non-federal match. **The awards are administered through IWRRC and are contingent upon Congressional approval of FY2021 funds for the National Institutes for Water Research program.**

Note, if your proposal is funded, the IWRRC expects to be acknowledged in publications and presentations of the supported work. Please use the following language to acknowledge IWRRC as a funding source:

This research is funded [, in part,] as [Project ID] under the provisions of section 104 of the Water Resources Research Act of 1984 annual base grants (104b) program through the United States Geological Survey and distributed through the Indiana Water Resources Research Center, www.iwrcc.org.

We also require that you notify us of any publications that can be attributed to the support from IWRRC.

If you received research funding from IWRRC in 2020, we ask you not to apply for research funding this year (2021) so we can share this limited funding throughout the state.

PROPOSAL FORMAT GUIDELINES

Research proposals - The proposal must contain the information outlined below in Attachments 1, 2, 3, 4, and 5 which includes an executive summary, the proposal, and additional documentation. All research proposals must have each section identified in Attachment 1 and be in the same order. Any research proposal that is not formatted correctly will not be eligible for funding. All other Attachments should be included.

SEND TO

Title and Reviewers: For research proposals, please send your project title and a list of names and email addresses for four reviewers within your field of expertise to Ms. Laura Esman (lesman@purdue.edu) no later than **5:00PM Eastern on Monday, November 9, 2020**. Your four reviewers should include: (1) out of state academic, (2) in state academic, and (3) two reviewers of your choice. Please include their title (e.g., Dr., Mr., Ms., etc.).

Submission of Research Proposal: Please send an electronic copy of the completed research proposal (MS-Word document only, not in PDF format) to Dr. Linda Prokopy (lprokopy@purdue.edu) and Ms. Laura Esman (lesman@purdue.edu) no later than 5:00PM Eastern on Monday, November 16, 2020. (Indicate the PI's NAME- **IWRRC 2021 proposal** in the header.) **We will respond with an email once we receive your submission.** If you do not receive a confirmation email within 24 hours of your submission, please contact Ms. Esman (email or phone) to let her know.

PROPOSAL and BUDGET QUESTIONS

Proposal questions may be addressed to IWRRC Director, Dr. Linda Prokopy, 765.496.2221, lprokopy@purdue.edu or Managing Director, Laura Esman, 765.496.3135, lesman@purdue.edu.

ATTACHMENT 1 –RESEARCH PROPOSAL

Executive Summary: *Items a-i must fit on no more than one page, unnumbered, with 1-inch margins all around. Do not include letters as part of heading for each section (Use 12 pt font and one inch margin and 2 pages total):*

- a. Title
- b. Focus categories (Attachment 2; maximum of three focus categories)
- c. Research Category: choose one category that most closely applies: Social Sciences, Ground-water Flow and Transport, Water Quality, Biological Sciences, Engineering, or Climate and Hydrologic Processes
- d. Keywords
- e. Project duration (include start and end date)
- f. Funding requested
- g. Matching funds pledge
- h. Principal Investigator(s): Name, academic rank, university, email address and phone number of the principal investigators
- i. Congressional District of the university where the work is to be conducted
- j. Abstract (300 words)
- k. Statement of critical regional or state water problem
- l. Statement of results/benefits

Main Body of Proposal: *The proposal must fit on no more than 5 pages including references, figures and graphs*

- a. Title. Please use the same title as above.
- b. Statement of critical regional or state water problem. Include explanation of the need for the project, who wants it, and why.
- c. Statement of results or benefits. Specify the type of information that is to be gained, and how it will be used.
- d. Nature, scope, and objectives of the project. Include a brief timeline of activities.
- e. Methods, procedures, and facilities. Provide enough information to permit evaluation of the technical adequacy of the approach to satisfy the objectives.
- f. Related research.
- g. Training potential. Estimate the number of graduate and undergraduate students, by degree level, who are expected to receive training in the project.
- h. Expected deliverables. Include information dissemination plan.
- i. If you have received IWRRC funds in the past, how have you leveraged the projects/funds that were supported by IWRRC and what were your accomplishments?
- j. References cited.

Additional Documents

- 1. CV of all investigators (NSF format not to exceed 2 pages/PI)
- 2. Budget Summary (attachment 3)
- 3. Budget Justification (attachment 4)
- 4. Data Management Plan (attachment 5)
- 5. Documentation of institutional approval of the proposal.
- 6. Matching fund commitment letter signed by authorized institutional official
- 7. Names and email addresses for four reviewers within your field of expertise.

FISCAL GUIDELINES. As in years past, the proposal budgets must reflect a \$2 non-federal match for each federal dollar requested. Please contact your college pre-award details but the match may include actual contributions, in-kind contributions and overhead costs. (Indirect costs may not be charged on the *federal* funding request in this program, although the match may include the indirect costs forgiven on the federal dollars.)

BUDGET JUSTIFICATION

Project Title:

<p>Salaries and Wages for PIs. Provide personnel, title/position, estimated hours and the rate of compensation proposed for each individual.</p>
<p>Salaries and Wages for Graduate Students. Provide personnel, title/position, estimated hours and the rate of compensation proposed for each individual. (Other forms of compensation paid as or in lieu of wages to students performing necessary work are allowable provided that the other payments are reasonable compensation for the work performed and are conditioned explicitly upon the performance of necessary work. Also, note that tuition has its own category below and that health insurance, if provided, is to be included under fringe benefits.)</p>
<p>Salaries and Wages for Undergraduate Students. Provide personnel, title/position, estimated hours and the rate of compensation proposed for each individual. (Other forms of compensation paid as or in lieu of wages to students performing necessary work are allowable provided that the other payments are reasonable compensation for the work performed and are conditioned explicitly upon the performance of necessary work. Also, note that tuition has its own category below and that health insurance, if provided, is to be included under fringe benefits.)</p>
<p>Fringe Benefits for PIs. Provide the overall fringe benefit rate applicable to each category of employee proposed in the project. Note: include health insurance here, if applicable.</p>
<p>Fringe Benefits for Graduate Students. Provide the overall fringe benefit rate applicable to each category of employee proposed in the project. Note: include health insurance here, if applicable.</p>
<p>Fringe Benefits for Undergraduate Students. Provide the overall fringe benefit rate applicable to each category of employee proposed in the project. Note: include health insurance here, if applicable.</p>
<p>Fringe Benefits for Others. Provide the overall fringe benefit rate applicable to each category of employee proposed in the project. Note: include health insurance here, if applicable.</p>
<p>Tuition for Graduate Students.</p>
<p>Tuition for Undergraduate Students. Provide the overall fringe benefit rate applicable to each category of employee proposed in the project. Note: include health insurance here, if applicable.</p>

<p>Supplies. Indicate separately the amounts proposed for office, laboratory, computing, and field supplies. Provide a breakdown of the supplies in each category.</p>
<p> </p>
<p>Equipment. Identify non-expendable personal property having a useful life of more than one year and an acquisition cost of more than \$5,000/unit. If fabrication of equipment proposed, list parts and materials required for each, and show costs separately from the other items. A detailed breakdown is required.</p>
<p> </p>
<p>Services or Consultants. Identify the specific tasks for which these services, consultants, or subcontracts would be used. Provide a detailed breakdown of the services or consultants to include personnel, time, salary, supplies, travel, etc.</p>
<p> </p>
<p>Travel. Provide purpose and estimated costs for all travel. A breakdown should be provided to include location, number of personnel, number of days, per diem rate, lodging rate, mileage and mileage rate, airfare (whatever is applicable).</p>
<p> </p>
<p>Other Direct Costs. Itemize costs not included elsewhere, including publication costs. Costs for services and consultants should be included and justified under "Services or Consultants" (above). Please provide a breakdown for costs listed under this category.</p>
<p> </p>
<p>Indirect Costs. Provide negotiated indirect ("Facilities and Administration") cost rate.</p>
<p> </p>

DATA MANAGEMENT PLAN

DATA MANAGEMENT PLAN GUIDELINES US GEOLOGICAL SURVEY FY2021 REQUEST FOR APPLICATIONS – 104B

Proposals submitted to USGS must include a **supplementary document of no more than two pages** labeled "Data Management Plan" (DMP). This supplementary document should describe how the proposal will conform to USGS policy on the dissemination and sharing of research results and associated data. A valid DMP may include only the statement that no detailed plan is needed (e.g. "No data are expected to be produced from this project"), as long as the statement is accompanied by a clear justification. This supplementary document may include:

- the types of data, samples, physical collections, software, curriculum materials, and other materials to be produced in the course of the project;
- the standards to be used for data and metadata format and content (where existing standards are absent or deemed inadequate, this should be documented along with any proposed solutions or remedies);
- policies for access and sharing including provisions for appropriate protection of privacy, confidentiality, security, intellectual property, or other rights or requirements;
- provisions for re-use, re-distribution, and the production of derivatives; and
- plans for archiving data, samples, and other research products, and for preservation of free public access to them.

Additional guidance on data management plans is available from the USGS Data Management web site here: <http://www.usgs.gov/datamanagement/plan/dmplans.php>
